Re:

Chesapeake's Proposed Cannella 24HC well Cannella South Unit & Rylee North Unit

Auburn and Rush Townships, Susquehanna County, Pennsylvania

Bradford Prospect

Dear Mr. Clanton:

Chesapeake Appalachia, L.L.C. ("CHK") hereby proposes to drill the Cannella 24HC well (the "Well") with a surface hole location of Latitude 41.739004 and Longitude -76.054064 (NAD 27); and an approximate bottom hole location of Latitude 41.70528 and Longitude -76.036, in Auburn and Rush Townships, Susquehanna County, Pennsylvania. The Well will be drilled to an approximate measured depth of 21,544' feet, with an approximate vertical depth of 6,640' feet, to test the Marcellus Formation and all other formations that may be encountered in the wellbore. Estimated costs to drill the Well are \$3,004,829.00, with a completed well costing approximately \$14,337,679.00. The anticipated spud date for the Well is October 9, 2018.

The Well will be a subsequent well drilled in the Cannella South Unit, which covers 679.3055082 acres. The Well will also be a subsequent well drilled in the Rylee North Unit, which will cover approximately 576.378718 acres.

The Well will be drilled as an Allocation Well, pursuant to the enclosed Allocation Consent Agreement. The preliminary Allocation Factor is an estimate, based on approximately **51.007375%** of the productive drainhole of the Allocation Well being in the Cannella South Unit, and approximately **48.992625%** of the productive drainhole of the Allocation Well being in the Rylee North Unit. Please be advised that these percentages may be adjusted following completion of the Well to reflect the actual percentages of the productive drainhole length within each unit. The table below contains a summary of the estimated working and net revenue interest ownership in the Well based on the aforementioned preliminary Allocation Factor:

| | Cannella South | Rylee North | Cannella 24HC Well | | |
|-------------------------------------|-------------------|----------------|--------------------|------------|--|
| Working Interest Owner | WI % | WI % | WI % | NRI % | |
| Chesapeake Appalachia, L.L.C. | 48.152813% | 64.094730% | 55.963177% | 47.541016% | |
| Equinor USA Onshore Properties Inc. | 25.219225% | 31.833245% | 28.459607% | 24.192838% | |
| Epsilon Energy USA Inc. | 4.073639% | 1.572025% | 2.848033% | 2.486214% | |
| Pelican Energy, L.L.C. | 2.500000% | 0.000000% | 1.275184% | 1.099173% | |

| * APO Interest Only | | | | |
| * APO Interest Only | | | | |

CHK and <u>Epsilon Energy USA Inc.</u> hereby acknowledge that the working and net revenue interest ownership set forth above is only an estimate, and that the actual working and net revenue interest ownership will be calculated following completion of the Well. Any necessary revisions will then be made to the working and net revenue interest ownership of the Well, and any necessary reversal and rebooking of funds shall be applied so as to accurately reflect such revisions.

Additionally, final unit configuration and working and net revenue interest is subject to adjustments after receipt of all elections and review of further review of the contributed oil and gas interest. If necessary, CHK will amend the DPU and JOA exhibits to conform to actual ownership. If a change is made, revised documents will be forwarded and billing adjustments processed in the ordinary course of business.

This well proposal is made pursuant to that certain Operating Agreement dated June 10, 2014, covering the Cannella South Unit; and that certain Operating Agreement dated July 12, 2010, covering the Rylee North Unit, (both of the Operating Agreements to be collectively referred to hereinafter as the "Subject JOAs"). Accordingly, please indicate your election in the space provided below, sign and return this letter to the undersigned within thirty (30) days from receipt. Should you elect to participate in the proposed operation, please also execute and return the enclosed AFE along with a check in the amount of \$85,578.52 (2.848033% WI X \$3,004,829.00), which represents your share of the AFE drilling costs. All well costs attributable to the Cannella 24HC will be billed as they are incurred through the JIB process. Failure to make a timely election shall be deemed an election not to participate and assume the non-consent penalties under the JOA.

Failure to make a timely election shall be deemed as a non-consent election as set forth under the Subject JOAs. CHK reserves the right to revoke and withdraw this proposal without prior notice.

Your prompt attention and response to this proposal will be greatly appreciated. Should you have any questions, please contact the undersigned at (405) 935-9164 or by email at courtney.moad@chk.com.

Best regards,

Chesapeake Appalachia, L.L.C.

Courtney Moad

Re: Marketing Arrangements CHK's Cannella 24HC (PN 660370)

To Whom It May Concern:

Chesapeake Operating, L.L.C. ("Chesapeake"), as operator of the subject well, requires certain information to update its records to determine your oil and gas marketing arrangements. Please indicate in the designated space below your desire to either (i) secure your own marketing arrangements for oil and/or gas production, or (ii) request Chesapeake to market your share of oil and/or gas production.

If you elect to take in kind and market your share of oil and/or gas production, Chesapeake will not be responsible for paying royalties, severance taxes, production payments, or other encumbrances due on your share of such production taken in kind, except to the extent required by law. Furthermore, Chesapeake shall not be responsible for any costs associated with your election to take your production in kind.

Should you elect to have Chesapeake market your share of oil and/or gas production, Chesapeake will agree to act as your agent for marketing your oil and/or gas and will ensure that you receive the same wellhead price as Chesapeake for production from such well(s). Chesapeake may choose to sell to affiliated or unaffiliated marketing companies, pipeline companies, end users or any other purchasers deemed acceptable in Chesapeake's sole judgment. Sales made on your behalf shall bear a proportionate share of any post production expenses charged or deducted by these entities, including marketing fees. Currently, if the gas (including any natural gas liquids contained therein) is marketed by Chesapeake's marketing affiliate, a 3% fee is retained from the gas resale price. Chesapeake's marketing affiliate charges a 1% fee of the oil resale price per barrel on all oil/condensate sales. The working interest owners shall bear their royalty owners' share of any such affiliated marketing fees. These fees are subject to change. Furthermore, all sales by Chesapeake shall be solely on a reasonable efforts basis and Chesapeake shall have no fiduciary obligation to obtain the best terms available for the sale of your oil and/or gas or that of your royalty owners.

By electing to have Chesapeake act as your agent in the marketing of oil and/or gas, you agree to defend, indemnify and hold Chesapeake harmless from any claims, demands, actions, judgments, costs and expenses (including, but not limited to, any fees, costs or expenses incurred in the enforcement of any indemnity or provision hereof) that Chesapeake may incur arising from Chesapeake's conduct under this agreement. By executing this agreement, you warrant that you have the right to dispose of your share of production. The indemnity and warranty provisions of this paragraph will survive the termination of this agreement for a period of five (5) years.

If, at any time, Chesapeake is required by any court, governmental agency or other entity to refund any of the proceeds received by Chesapeake pursuant to the sale of oil and/or gas hereunder, you agree to reimburse Chesapeake for that portion of the refund, including any applicable interest or penalties attributable to the oil and/or gas sold by Chesapeake on your behalf, or your royalty owner's behalf, within thirty (30) days from a reimbursement request from Chesapeake. This reimbursement obligation shall survive the termination of this agreement.

Should you elect to market your oil and/or gas production with Chesapeake, your share of royalty proceeds will be distributed and severance taxes remitted to the proper owners or authorities. However, you are responsible for notifying Chesapeake in writing of any special payment obligations, tax exempt interests, title or royalty owner information necessary to facilitate the proper distribution of royalties and remittance of severance taxes. Chesapeake will act only in an administrative capacity when distributing your share of royalty proceeds and taxes and you shall retain sole liability for erroneous payments caused by inaccurate information provided to Chesapeake.

Re:

Marketing Arrangements CHK's Cannella 24HC (PN 660370)

The term of this agreement shall commence the date of first sales and shall continue thereafter unless or until terminated by either party effective the first day of the month immediately following at least sixty (60) days written notice to the other party.

Regarding Oklahoma wells only, this agreement does not constitute, and shall be in lieu of, an election by either party to offer or to participate in market sharing arrangements for natural gas sales under the Natural Gas Market Sharing Act, 52 O.S. § 581.1 et seq. The terms of this letter shall not alter the obligations of the parties hereto under the Production Revenue Standards Act, 52 O.S. § 570.1 et seq.

PLEASE NOTE: If Chesapeake does not receive your response to this letter within thirty (30) days of your receipt of this letter, Chesapeake will understand that you desire Chesapeake to market your share of production and Chesapeake will market on your behalf pursuant to the provisions of this Agreement as if you had affirmatively elected to market with Chesapeake (until such time as Chesapeake receives written notification of your alternative marketing arrangements). If you elect not to have Chesapeake market your oil and/or gas, Chesapeake will not be responsible for distributing royalties or remitting severance taxes, except to the extent required by law.

This agreement shall be binding upon and inure to the benefit of the parties hereto and their respective heirs, devises, legal representatives, successors and assigns. You agree to promptly notify Chesapeake of any assignment or other disposition of your interest.

Should you have any questions concerning this matter, please email GBalancing@chk.com.

Thank you,

Courtney Moad

Marketing Election for CHK's Cannella 24 HC

Definition of Marketing Election:

- Market with Chesapeake: We request that Chesapeake Operating, L.L.C. ("Chesapeake") market our gas and/or oil under the terms and conditions set forth in Chesapeake's marketing election letter.
- Take-in-Kind: We do not desire Chesapeake to market our gas and/or oil and we will separately market our own share of gas and/or oil. We agree to provide nomination volumes by the 20th of each month. Furthermore, we understand that failure to timely nominate will result in no allocation to our interest for the month in question, and that Chesapeake shall have the right to adjust our nomination to correspond with actual production.

Re: Chesapeake's Proposed Cannella 25HC well

Cannella South Unit & Rylee North Unit

Auburn and Rush Townships, Susquehanna County, Pennsylvania

Bradford Prospect

Dear Mr. Bond:

Chesapeake Appalachia, L.L.C. ("CHK") hereby proposes to drill the Cannella 25HC well (the "Well") with a surface hole location of Latitude 41.73895 and Longitude -76.054007 (NAD 27); and an approximate bottom hole location of Latitude 41.706897 and Longitude -76.030906, in Auburn and Rush Townships, Susquehanna County, Pennsylvania. The Well will be drilled to an approximate measured depth of 20,721' feet, with an approximate vertical depth of 6,640' feet, to test the Marcellus Formation and all other formations that may be encountered in the wellbore. Estimated costs to drill the Well are \$3,059,882.00, with a completed well costing approximately \$13,979,297.00. The anticipated spud date for the Well is October 30, 2018.

The Well will be a subsequent well drilled in the Cannella South Unit, which covers 679.3055082 acres. The Well will also be a subsequent well drilled in the Rylee North Unit, which will cover approximately 576.378718 acres.

The Well will be drilled as an Allocation Well, pursuant to the enclosed Allocation Consent Agreement. The preliminary Allocation Factor is an estimate, based on approximately **50.873429%** of the productive drainhole of the Allocation Well being in the Cannella South Unit, and approximately **49.126571%** of the productive drainhole of the Allocation Well being in the Rylee North Unit. Please be advised that these percentages may be adjusted following completion of the Well to reflect the actual percentages of the productive drainhole length within each unit. The table below contains a summary of the estimated working and net revenue interest ownership in the Well based on the aforementioned preliminary Allocation Factor:

| | Cannella South | Rylee North | Cannella 25HC Well | |
|-------------------------------------|-------------------|----------------|--------------------|------------|
| Working Interest Owner | WI % | WI % | WI % | NRI % |
| Chesapeake Appalachia, L.L.C. | 48.152813% | 64.094730% | 55.984530% | 47.541016% |

CHK and <u>Epsilon Energy USA Inc</u> hereby acknowledge that the working and net revenue interest ownership set forth above is only an estimate, and that the actual working and net revenue interest ownership will be calculated following completion of the Well. Any necessary revisions will then be made to the working and net revenue interest ownership of the Well, and any necessary reversal and rebooking of funds shall be applied so as to accurately reflect such revisions.

Additionally, final unit configuration and working and net revenue interest is subject to adjustments after receipt of all elections and review of further review of the contributed oil and gas interest. If necessary, CHK will amend the DPU and JOA exhibits to conform to actual ownership. If a change is made, revised documents will be forwarded and billing adjustments processed in the ordinary course of business.

This well proposal is made pursuant to that certain Operating Agreement dated June 10, 2014, covering the Cannella South Unit; and that certain Operating Agreement dated July 12, 2010, covering the Rylee North Unit, (both of the Operating Agreements to be collectively referred to hereinafter as the "Subject JOAs"). Accordingly, please indicate your election in the space provided below, sign and return this letter to the undersigned within thirty (30) days from receipt. Should you elect to participate in the proposed operation, please also execute and return the enclosed AFE, along with a check in the amount of \$87,043.88 (2.844681% WI X \$3,059,882.00), which represents your share of the AFE drilling costs. All well costs attributable to the Cannella 25HC will be billed as they are incurred through the JIB process. Failure to make a timely election shall be deemed an election not to participate and assume the non-consent penalties under the JOA.

Failure to make a timely election shall be deemed as a non-consent election as set forth under the Subject JOAs. CHK reserves the right to revoke and withdraw this proposal without prior notice.

Your prompt attention and response to this proposal will be greatly appreciated. Should you have any questions, please contact the undersigned at (405) 935-9164 or by email at courtney.moad@chk.com.

Best regards,

Chesapeake Appalachia, L

Countney Moad

Re:

Marketing Arrangements CHK's Cannella 25H (PN 660371)

To Whom It May Concern:

Chesapeake Operating, L.L.C. ("Chesapeake"), as operator of the subject well, requires certain information to update its records to determine your oil and gas marketing arrangements. Please indicate in the designated space below your desire to either (i) secure your own marketing arrangements for oil and/or gas production, or (ii) request Chesapeake to market your share of oil and/or gas production.

If you elect to take in kind and market your share of oil and/or gas production, Chesapeake will not be responsible for paying royalties, severance taxes, production payments, or other encumbrances due on your share of such production taken in kind, except to the extent required by law. Furthermore, Chesapeake shall not be responsible for any costs associated with your election to take your production in kind.

Should you elect to have Chesapeake market your share of oil and/or gas production, Chesapeake will agree to act as your agent for marketing your oil and/or gas and will ensure that you receive the same wellhead price as Chesapeake for production from such well(s). Chesapeake may choose to sell to affiliated or unaffiliated marketing companies, pipeline companies, end users or any other purchasers deemed acceptable in Chesapeake's sole judgment. Sales made on your behalf shall bear a proportionate share of any post production expenses charged or deducted by these entities, including marketing fees. Currently, if the gas (including any natural gas liquids contained therein) is marketed by Chesapeake's marketing affiliate, a 3% fee is retained from the gas resale price. Chesapeake's marketing affiliate charges a 1% fee of the oil resale price per barrel on all oil/condensate sales. The working interest owners shall bear their royalty owners' share of any such affiliated marketing fees. These fees are subject to change. Furthermore, all sales by Chesapeake shall be solely on a reasonable efforts basis and Chesapeake shall have no fiduciary obligation to obtain the best terms available for the sale of your oil and/or gas or that of your royalty owners.

By electing to have Chesapeake act as your agent in the marketing of oil and/or gas, you agree to defend, indemnify and hold Chesapeake harmless from any claims, demands, actions, judgments, costs and expenses (including, but not limited to, any fees, costs or expenses incurred in the enforcement of any indemnity or provision hereof) that Chesapeake may incur arising from Chesapeake's conduct under this agreement. By executing this agreement, you warrant that you have the right to dispose of your share of production. The indemnity and warranty provisions of this paragraph will survive the termination of this agreement for a period of five (5) years.

If, at any time, Chesapeake is required by any court, governmental agency or other entity to refund any of the proceeds received by Chesapeake pursuant to the sale of oil and/or gas hereunder, you agree to reimburse Chesapeake for that portion of the refund, including any applicable interest or penalties attributable to the oil and/or gas sold by Chesapeake on your behalf, or your royalty owner's behalf, within thirty (30) days from a reimbursement request from Chesapeake. This reimbursement obligation shall survive the termination of this agreement.

Should you elect to market your oil and/or gas production with Chesapeake, your share of royalty proceeds will be distributed and severance taxes remitted to the proper owners or authorities. However, you are responsible for notifying Chesapeake in writing of any special payment obligations, tax exempt interests, title or royalty owner information necessary to facilitate the proper distribution of royalties and remittance of severance taxes. Chesapeake will act only in an administrative capacity when distributing your share of royalty proceeds and taxes and you shall retain sole liability for erroneous payments caused by inaccurate information provided to Chesapeake.

Case 3:02-at-06000 Document 1080-10 Filed 09/20/18 Page 15 of 20

Date: August 15, 2018
Partner: Epsilon Energy USA Inc

Re: Marketing Arrangements CHK's Cannella 25H (PN 660371)

The term of this agreement shall commence the date of first sales and shall continue thereafter unless or until terminated by either party effective the first day of the month immediately following at least sixty (60) days written notice to the other party.

Regarding Oklahoma wells only, this agreement does not constitute, and shall be in lieu of, an election by either party to offer or to participate in market sharing arrangements for natural gas sales under the Natural Gas Market Sharing Act, 52 O.S. § 581.1 et seq. The terms of this letter shall not alter the obligations of the parties hereto under the Production Revenue Standards Act, 52 O.S. § 570.1 et seq.

PLEASE NOTE: If Chesapeake does not receive your response to this letter within thirty (30) days of your receipt of this letter, Chesapeake will understand that you desire Chesapeake to market your share of production and Chesapeake will market on your behalf pursuant to the provisions of this Agreement as if you had affirmatively elected to market with Chesapeake (until such time as Chesapeake receives written notification of your alternative marketing arrangements). If you elect not to have Chesapeake market your oil and/or gas, Chesapeake will not be responsible for distributing royalties or remitting severance taxes, except to the extent required by law.

This agreement shall be binding upon and inure to the benefit of the parties hereto and their respective heirs, devises, legal representatives, successors and assigns. You agree to promptly notify Chesapeake of any assignment or other disposition of your interest.

Should you have any questions concerning this matter, please email GBalancing@chk.com.

Re:

Marketing Arrangements CHK's Cannella 25H (PN 660371)

Marketing Election for CHK's Cannella 25H

Definition of Marketing Election:

- Market with Chesapeake: We request that Chesapeake Operating, L.L.C. ("Chesapeake")
 market our gas and/or oil under the terms and conditions set forth in Chesapeake's marketing
 election letter.
- Take-in-Kind: We do not desire Chesapeake to market our gas and/or oil and we will separately market our own share of gas and/or oil. We agree to provide nomination volumes by the 20th of each month. Furthermore, we understand that failure to timely nominate will result in no allocation to our interest for the month in question, and that Chesapeake shall have the right to adjust our nomination to correspond with actual production.

Re:

Allocation Consent Agreement
Cannella South Unit & Rylee North Unit
Auburn and Rush Townships, Susquehanna County, Pennsylvania

Ladies and gentlemen:

Chesapeake Appalachia, L.L.C. ("Chesapeake") intends to drill a well or wells which will extend into two units, the existing Cannella South Unit and the Rylee North Unit (any well drilled which extends into both of the aforementioned units to be referred to as an "Allocation Well"). In accordance therewith, Chesapeake desires to establish the method by which production and costs will be allocated via this Allocation Consent Agreement ("ACA"), by and between the following parties (all of which to be collectively referred to herein as the "ACA Parties", and/or individually as "ACA Party"), each of which own a working interest in one or both of the aforementioned Units under and subject to the following Operating Agreements:

- that certain Operating Agreement for the Cannella South Unit, dated June 10, 2014, by and between Chesapeake, as Operator; and Equinor USA Onshore Properties, Inc. ("Equinor"), Epsilon Energy USA, Inc., ("Epsilon"), Pelican Energy, L.L.C. ("Pelican"), Chief Exploration & Development LLC ("Chief"), Enerplus Resources (USA) Corporation ("Enerplus"), Radler 2000 Limited Partnership ("Radler"), Tug Hill Marcellus LLC ("Tug Hill"), and Unconventionals Natural Gas, LLC ("Unconventionals"), as Non-Operators, and;
- that certain Operating Agreement for the Rylee North Unit, dated July 12, 2010, by and between Chesapeake, as Operator; and Equinor, Epsilon and Jamestown Resources, L.L.C. ("Jamestown"). The method by which all costs and production shall be allocated for each Allocation Well shall be calculated as follows for each of the ACA Parties: the Allocation Factor for each unit shall be a

Chesapeake Energy Corporation

Allocation Consent Agreement Dated August 15, 2018

fraction, the numerator of which is equal to the length of that portion of the productive drainhole length of an Allocation Well that lies within each respective unit, and the denominator of which is equal to the entire productive drainhole length of the Allocation Well. The Allocation Factor shall be multiplied by each respective ACA Party's working and net revenue interest in each unit, and the equation for each unit will be summed together to determine each respective ACA Party's working and net revenue interest for the Allocation Well. The productive drainhole length shall be measured from the first take point to the last take point along the lateral of the Allocation Well. A preliminary estimate of these measurements shall be based on GIS measurements and shall be provided by Chesapeake with the drilling proposals for the Allocation Wells, together with the resulting estimated Allocation Factors and working and net revenue interests of the ACA Parties. Upon completion of the Allocation Well, a final Allocation Factor for each unit will be determined.

Except as expressly set forth herein, the above referenced Operating Agreements for the Cannella South Unit and Rylee North Unit will govern the rights and obligations of the parties as to that portion of the productive drainhole length of each Allocation Well's lateral lying within each respective unit.

Please indicate your agreement to the above method for calculating working interests in the Allocation Well by executing this ACA in the appropriate space provided below and return a signed copy to the attention of the undersigned. Your early attention and response will be greatly appreciated. Should you have any questions, please do not hesitate to contact the undersigned.

Best regards,

Chesapeake Appalachia, L.L.C
